Internship Experience

Tata Steel Meramandali, Odisha

02 Jun 2025 – 30 Jun 2025

Vocational Trainee – Human Resources (Learning & Development)

- Conducted a project-based study under the Learning & Development (L&D) function focused on upskilling contract-based workers.
- Analysed skill gaps and training needs through observation, discussions, and secondary information.
- Identified barriers to training participation, including language barriers, literacy levels, temporary employment, and vendor-related concerns.
- Studied reasons for hesitation, fear, and lack of awareness regarding employee training and development programs.
- Suggested practical initiatives to improve awareness, trust, participation, and continuous skill development among contract workers.

Academic Project

A Study on Upskilling of Contract Workforce at Tata Steel Meramandali, Odisha

- Conducted a study of existing upskilling and training practices for contract-based workers.
- Analysed training needs and challenges affecting participation in workforce development programs.
- Studied the effectiveness of existing training initiatives and identified areas for improvement.
- Recommended practical measures to increase training participation and support continuous skill development.
